

Chafing Dish Heater

Eliminate the costs, labour intensity, and safety issues that go with heating fuels that use a naked flame. Designed to operate with an energy regulator, these super-economical chafing dish heaters not only work brilliantly, they will typically pay for themselves in two months of normal commercial use. No gas or smoke emissions, no naked flames, and no disposal of burner tins. This chafing dish unit is environmentally friendly, safe, efficient and reliable to use.

FEATURES

- Stainless steel construction
- Energy regulator
- Suitable for linking up to four heaters, each with dedicated controls (HP9B only)
- Adjustable feet
- Environmentally friendly

SPECIFICATIONS

MODEL	POWER Watts	ELEC CON. Amps	LINKING	DIMENSIONS w x d x h (mm)
HP9B	600	10	YES	465 x 125 x 85
