

# AUSTHEAT®

## Electric Performance Grills

*Designed to work either as a stand alone machine or alongside Austheat deep fryers in a modular configuration.*

### Features of both AHT860 and AH860:

- 3 phase electric hotplate / griddle toaster
- 12 mm thick heavy-duty steel hotplate
- Castors on rear, adjustable legs at front.

### AH860 - with extra storage space:

- Extra storage space ideal for storing plates or cooking materials.
- 3 step adjustable, removable shelf for easy cleaning

### AHT860 with toasting or salamander

- Ideal for high speed grilling & toasting
- Each cooking surface section is separately controlled by it's own Cook/Idle switch
- Twin digital LED temperature displays
- Cook/Idle (i.e. standby) setting for quick switching between settings
- Dedicated element for one-sided toasting or salamander function
